Giving \$62,000 for Card of Bouts Seems an Uncalled for Waste of Money by International Sporting Club.

CEBMS to us as if the International Sporting Club is creating a bad precedent in handing out such big money to the fighters who are to figure in its boxing show originally planned for New York but recently transfered to Newark. Of course the fighters and their managers can't be blamed for "holding up" promoters for all that they can get, but in this case it doesn't seem to be a case of "hold up." Rather it is a case of uncalled for generosity on the part of a big club which evidently wishes to impress the public a la Tex Rickars. Tex is a big operator when it comes to things worth while in a fistic way, but we can't imagine him even in his wildest flights of enthusiasm giving away \$62,000 for a card which on paper

looks worth about half that sum.

The \$25,006 that Fulton is to get for meeting Harry Wills, the negro heavyweight, seems all out of line, and the \$10,000 supposed to be Will's guarantee represents probably more than he has earned in his entire career in the ring. Then Jack Britton, according to advance notices, is to drag down \$10,000 for boxing Mar-cel Thomas, the alleged French champion. Under ordinary circumstances Jack would fight a cage full of wild cats for that, but more power to you, Jack, and your hardworking manager, Dan Morgan. Get all you can while the getting is good.

Frank Moran, who is to clash with the rough and uncouth "Wild Burt" Kenny, is down for \$5,000 for his services, and Kenny is to get \$1,500 for his end of the slugging bee. Johnny Dundee and Eddie Fitzsimmons are

Baker in ten seasons.

That mark has stood as the record for home runs by a single player. In less than five full seasons in the game Ruth has made seventy-eight homers.

to be paid "fancy prices" too.
And who is the "sucker" in the
case of this wilful waste of money?
Poor old Mr. Public whose love of the sport compels him to pay a month's rent for a ticket. How long will the game last under such condi-

TOW the club expects to make ends meet after what looks like just plain squandering of money is beyond us. We know there are powerful and moneyed interests behind the international Sporting Club, but we never pictured them as philanthropists.

.D time fighters never got anything approaching what the present day fighters are paid, and for the most part they were better entertainers, pugilistically speaking, than the present day crop. They had to battle too. There were '10 "no decision" dances for them to go through and "return dates" weren't

The old timers, as a rule, were all good fellows. They circulated, they spent money and perhaps foolishly, had "good times." To-day the average fighter is a "wise guy.' He hoards his money or in tests it profitably. To him fighting is more of a for a couple of hundred than lose when the loser's end was a thousand.

TEX RICKARD has been a very busy man since he made the announcement that he had taken a ten year lease on Madison Square Garden. He is chasing, here, there and all over, arranging leases for all the time-honored events which have for years been housed in the historic old structure. In addition applications are pouring in on him for so many brand new shows that Tex will need a week or ten days to recover from the furore his latest venture has created.

Rickard tells us he has many plans in view for improving the Garden, increasing its scuting capacity and generally making it more attractive than it has been of late years. All the fixtures such as the dog show, the horse show, the circus, and the bicycle race will be held there as usual. Boxing bouts, of course, will be seen too, but these may be run under the auspices of a secondary corporation with Rickard at its hend. Tex, however, isn't considering anything whig' for the fight fans at this time.

## MUD SPOILS DAY'S RACING

Worst Sport of the Season Seen at Yonkers, With Four of Six Events Developing Into Plain Processions.

By Vincent Treanor.

HROUGH the fault of nobody in particular, but due in a measure to the muddy condition of the track, the racing at Yonkers yesterday was without doubt the worst seen on any one day this season. The card was scratched to pieces, and what contention was promised by the entries in their original form was alnost entirely eliminated before the arrival of the rainy day crowd.

The Sandy Hook yachting course has three legs, the same as P. T. Barnum's freak, and is attracting almost as much attention.
